**WINDOW TREATMENT**

**A&J Interiors**

*Photographer: Marisa Pellegrini*

The homeowner thought her ballroom windows needed only Hunter Douglas Silhouette shades. But as Debi Pinelli of A&J Interiors worked in the home's other rooms, she pitched ideas for the ballroom, which she found "cold and uninviting even with its stylish furniture. The room, with marble floors, also had a big echo problem." Pinelli won her client over with a rendering of stationary panels and board-mounted box-pleat valances (R.M. Coco's Chimera fabric in the color Morgana Oyster). The designer pronounces the treatment "warm and welcoming," plus it absorbs sound.

# WINNERS *at the* WINDOW

**Experts reveal their favorite treatments** BY MARY VINNEDGE

*DESIGN NJ* invited six window-treatment companies and designers to show off their favorite projects from the past year. They made their choices on the basis of beautiful fabrics, creative problem-solving and designs that beautifully complement the architecture and other elements in the rooms. Here are their picks.

*Mary Vinnedge, Design NJ's social media editor, freelances from her home in Galveston, Texas. Contact her through the magazine's Facebook page.*
